

KYC Policy - Customer Due Diligence

As per the RBI Master Direction on KYC, all customers must provide one Officially Valid Document (OVD) such as Passport, Driving License, Voter ID, Aadhaar, or NREGA Job Card. Non-Resident External (NRE) accounts require a valid passport and proof of overseas address.

Customer Due Diligence measures should include verification of identity, address proof, and beneficial ownership information. Periodic KYC updating must be done once every 2 years for high-risk customers and once every 10 years for low-risk customers.

Accounts that do not comply with KYC requirements may be put on hold until documents are furnished. Banks should maintain logs of verification and keep scanned copies of all submitted documents.
